Subject: ALLEGED PLOT TO KILL SIR BASIL BROOKE -
PRIME MINISTER OF NORTHERN IRELAND

Reference is made  in
the above-captioned matter.

For your information, the New York and Buffalo Offices have
been requested to establish the contacts 

The Immigration and Naturalization Service has advised that,
due to the current Border-crossing facilities, it would be possible for
any of these individuals to leave the United States  unknown
to the Immigration authorities in the event they did not intend to return
to this country. If they should intend to return, however, it would be
necessary for them to secure re-entry permits and, therefore, the
Immigration and Naturalization Service has been requested to advise the
Bureau immediately in the event any of the individuals involved should
request such re-entry permits.

You will be promptly notified of any information received by
the Bureau in connection with this matter.

Reference is made to New York teletype dated May 14, 1950, stating that unless advised to the contrary, the New York Office would arrange, through the employers of [REDACTED] and [REDACTED] to be notified in the event any of them attempted to leave the country during the next few weeks. On the morning of May 15, I advised ASAC Whelan that any contact with the employers of these individuals should be of such a nature that we do not cast suspicion on them; that there was, of course, no indication that these individuals were going to go [REDACTED] attack the Prime Minister of Ireland and we should be careful that we do not do an injustice by casting suspicion on them at their place of employment.

Mr. Whelan advised that any inquiries conducted at the place of employment have been through a pretext and the New York Office will continue to handle the matter through pretext. He stated that all three of these individuals were at their place of employment this morning and the New York Office would arrange to be kept advised in the event any of them departed for Canada.
